Wheaten Health Month May 2018

Welcome to the Wheaten Health Month at Pine Grove Animal Hospital. We are glad to participate in this wellness screening effort for your Soft Coated Wheaten Terrier. Our goal is to provide you, and your veterinarian if you are not a Pine Grove client, with health screening information that will help you maintain a high quality of life for your Wheaten for many years to come.

Your visit today will include the following:

- Medical history that will cover issues including diet, attitude, activity, coughing, sneezing, vomiting, diarrhea, thirst and urine output, mobility, seizures, pain, and scratching.
- Physical examination that will include temperature, pulse, respiration, and full physical examination.
- Collection of blood and urine for a Wheaten Profile including a 25-parameter biochemical panel, complete blood count with standard cbc, urinalysis, and urine protein:creatinine (UPC) ratio.
- A “report card” summarizing information and recommendations based on the medical history and physical examination.
- Information on Genetic Testing for PLN-Associated Variant Genes
- Heartworm test upon request

Standard		Wheaten Health Month	
Comprehensive Examination	\$ 64.00	Comprehensive Examination	Included
Wheaten Profile	\$ 201.06	Wheaten Profile	Included
Standard total	\$ 265.06	Wheaten Health Month Total	\$188.19
Heartworm test	\$ 20.00		\$ 18.00

Pine Grove Animal Hospital will donate \$18.81 of to the Greater Denver Soft Coated Wheaten Terrier Club for each completed visit during Wheaten Health Month.

We ask that owners who are not clients of Pine Grove Animal Hospital provide us with the name and fax number of your regular practice so we can forward copies of our examination and test results.
