Joining Wheaten - L

The "Wheaten-L" is an email list of Wheaten owners - about 500 of them - who own and love Wheatens. Breeders and pet owners alike use the List to discuss everything Wheaten. Whether it's an antic that someone wants to share or discussions about
health, training, grooming, or anything else.... you'll see a little of everything on the "Wheaten-L".

The Wheaten-L was started before Yahoo and some of the other groups that are popular now, and the registration process is a bit different. If you are interested in participating on the Wheaten-L, this is how you join.

To Subscribe
Send an email to listserv@apple.ease.lsoft.com.
Your email message should read: SUB Wheaten-L <your name>

Note that "your email message" needs to go in the body of your email. It can also go in the subject line, but it must be included in the body of the email to be understood by the server. Once your message to subscribe has been received, you will get a response with additional commands that can be used to change your settings.

Following is a list of commands for the Wheaten - L

Remember: Send commands to listserv@apple.ease.lsoft.com, NOT to the Wheaten-L address.
